DMO WEB ANNOUNCEMENT: 16 MARCH 2005

DMO Remit 2005-06 - including issuance of ultra-long gilts

The DMO's Remit for 2005-06 has been published today as part of the Budget 2005 announcements. The main points are summarised below – more details of the Remit are included in the Debt and Reserves Management Report (DRMR) 2005-06. The DMO is also publishing today its response to the consultation on ultra-long gilt issuance (see below).

Gilt sales

Gilt sales of £53.5 billion are planned for 2005-06 – split as follows:

£12.5 billion of short conventionals
 £11.5 billion of medium conventionals
 £18.5 billion of long conventionals*
 £11.0 billion of index-linked gilts*
 in 4 auctions
 in 7 auctions
 in 11 auctions

The auction calendar is reproduced at Table 1 below

Treasury bill sales

The stock of Treasury bills in market hands is scheduled to fall by £1.0 billion in 2005-06, taking the planned stock at-end March 2006 to £19.5 billion.

Changes to the financing requirement

The DRMR includes new forecasts for the CGNCR of £42.9 billion for 2004-05 and £40.2 billion in 2005-06. These are increases of £3.2 billion and £4.2 billion since the forecasts published in the 2004 Pre-Budget Report (PBR). Other changes contributing to financing in 2004-05 since PBR are:

- an increase of £2.0 billion in Treasury bill sales, taking the planned end-March stock to £20.5 billion;
- an increase of £0.1 billion secondary market gilt purchases by the DMO.

The gross financing requirement for 2005-06 is forecast to be £54.7 billion. After taking account of National Savings & Investments' estimated net contribution to financing of £3.5 billion, the net financing requirement is forecast to be £51.2 billion. This is being financed by gilt sales of £53.5 billion, and a net reduction in short-term debt levels of £2.3 billion (comprising a reduction in the stock of Treasury bills of £1.0 billion and an increase in the DMO net cash position of £1.3 billion). The financing tables for 2004-05 and 2005-06 are reproduced at Table 2 below. Also reproduced at Table 3 below are illustrative financing projections out to 2009-10.

^{*} Long conventional and index-linked gilts may include issuance of ultra-long gilts, with a maturity of up to circa 50-years.

Ultra-long gilt consultation

The DMO's response to the ultra-long gilt consultation is published today and is available at www.dmo.gov.uk/gilts/public/consdoc160305.pdf The main conclusions which have been incorporated into the DMO Remit for 2005-06 are:

- From 2005-06, the DMO may issue conventional and index-linked gilts with maturities of up to approximately 50-years;
- Ultra-long conventional gilts may be issued from the first quarter of 2005-06 but new index-linked gilts with a three-month lag will not be issued before the second quarter;
- Decisions on specific maturities for the total issuance in any one quarter will be announced at the end of the preceding quarter, in the regular quarterly announcement on gilt issuance plans; and
- The DMO will **not** issue conventional or index-linked annuity type gilts in 2005-06 or in the near future.

Table 1: Gilt auction calendar

the DMO will reschedule the auction(s).
