Gilt Market

Turnover

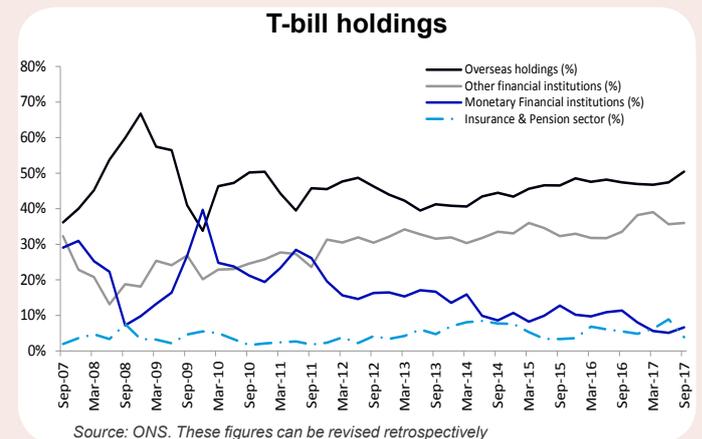

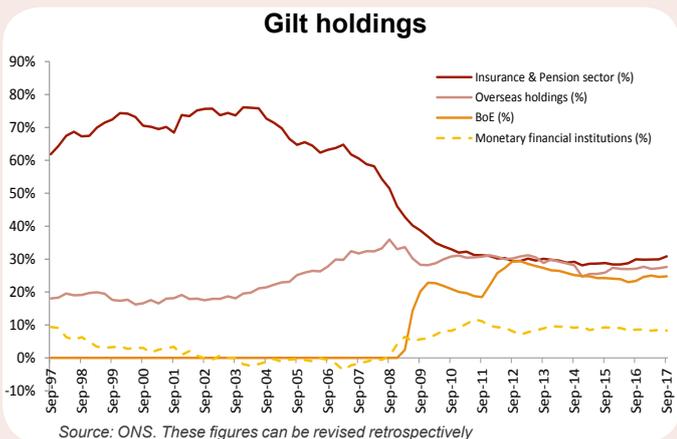

Turnover figures are based on market values and appear as reported to the DMO by Gilt-edged Market Makers (GEMMs). Professional turnover is defined as turnover with counterparties who are InterDealer Brokers (IDBs), other GEMMs, DMO or Bank of England. Professional turnover volumes do not account for the effect of possible double counting due to trading with IDBs.

Future gilts redemptions (£bn)

The redemption totals for index-linked gilts in this chart do not reflect the full value of inflation uplift. They are calculated in a way consistent with the formulation of the Government's financing requirement; i.e. that part of the accrued inflation uplift on any redeeming gilts that represents the return to investors is included in the CGNCR in that redemption year, and the remainder is included in the redemption total for the year in which the relevant gilt redeems.
