PRESS NOTICE

SYNDICATED LAUNCH OF A NEW GREEN GILT MATURING ON 7 MARCH 2037 IN THE WEEK COMMENCING 9 MARCH 2026

The United Kingdom Debt Management Office (DMO) announces that the seventh and final transaction of the 2025-26 syndication programme will be the launch of a new green gilt maturing on 7 March 2037. The new gilt will have the ISIN code GB00BVP99905 and the SEDOL code B-VP9-990; it will pay a short first coupon on 7 September 2026.

The transaction is planned to take place in the week commencing 9 March 2026, subject to demand and market conditions. Further details of this transaction, including the appointment of the syndicate and the coupon on the new gilt, will be announced in due course.

Notes for editors

On 5 December 2025, the DMO announced plans to schedule two syndications in Q4 2025-26: of an existing long conventional gilt in the week commencing 19 January 2026 and a new medium green gilt in February 2026 (with the timing of both transactions subject to demand and market conditions). Following the announcement by the Chancellor of the Exchequer that the Spring forecast will be held on Tuesday 3 March 2026, the planned timing for the medium green gilt syndication was moved to March 2026 as announced by the DMO on 6 January 2026 in an update to the gilt operations calendar for Q4 2025-26.

The results of the previous syndications held in 2025-26 are summarised below.
