

## PRESS NOTICE

### SYNDICATED RE-OPENING OF 5¼% TREASURY GILT 2041 IN THE WEEK COMMENCING 8 JUNE 2026

The United Kingdom Debt Management Office (DMO) announces that the second transaction of the 2026-27 syndication programme will be a re-opening of 5¼% Treasury Gilt 2041.

The transaction is planned to take place in the week commencing 8 June 2026, subject to demand and market conditions. Further details of this transaction, including the appointment of the syndicate, will be announced in due course.

#### Notes for editors

Gilt sales of approximately £42.0 billion via syndication are planned in the DMO's 2026-27 financing remit, to be raised via:

- Approximately £20.0 billion of medium conventional gilts in two transactions;
- Approximately £15.0 billion of long conventional gilts in three transactions; and
- Approximately £7.0 billion of index-linked gilts in two transactions.

However, the planned number of syndications within each maturity category and, therefore, the total amounts raised in each category may vary depending on demand and market conditions.

On 20 March 2026, the DMO announced plans to schedule two syndications in Q1 2026-27:

- A new medium conventional gilt in the 10-year area in April 2026; and
- A new or existing conventional gilt in June 2026<sup>1</sup>.

The result of the previous syndication held in 2026-27 is summarised below.

Date	Gilt	Size (nominal) (£mn)	Issue price (£)	Issue yield (%)	Proceeds** (cash) (£mn)
14 April 2026	4¼% Treasury Gilt 2036	15,000	99.680	4.916	14,930
					<b>14,930</b>

\*\* Figures may not sum due to rounding.

This Press Notice will be appearing on the DMO's website at: [www.dmo.gov.uk](http://www.dmo.gov.uk)

<sup>1</sup> The DMO noted in the 20 March 2026 announcement that it would continue to keep the dual-tranche syndication format under consideration and would review any potential use of this format closer to the time of the June 2026 transaction. Following further consideration, the DMO has decided to conduct a single-tranche transaction in June 2026.
