## **PRESS NOTICE**

### **SALE BY SYNDICATED OFFERING OF A NEW CONVENTIONAL GILT MATURING ON 22 JANUARY 2044 IN THE WEEK COMMENCING 22 OCTOBER 2012**

### **GILT MINI-TENDER TO BE SCHEDULED IN THE WEEK COMMENCING 29 OCTOBER 2012**

The United Kingdom Debt Management Office (“the DMO”) announces that the next syndicated offering will be the launch of a new conventional gilt maturing on 22 January 2044, which will pay a short first coupon on 22 January 2013.

Subject to market conditions, it is expected that the offer will take place in the week commencing 22 October 2012. Further information about the conduct of the offer, including the composition of the syndicate, will be announced in due course.

The DMO is also announcing today its intention to schedule a gilt mini-tender in the week commencing 29 October 2012. The mini-tender will be for a short- or medium-dated conventional gilt. Further details about this operation will also be announced in due course.

### **NOTES TO EDITORS**

The DMO financing remit for 2012-13, published alongside the Budget on 21 March 2012, included the provision for a programme of up to eight syndicated offerings to be held in 2012-13 aiming to raise £33.5 billion. The planning assumption is that two syndicated offerings will be held in each quarter of the financial year.

The DMO also announced on 21 March 2012 that it intended to implement the syndication programme on a broadly even-flow basis throughout the year, in a similar way to 2011-12. The DMO may, however, continue to vary the size of each syndicated offering to take account of

market and demand conditions at the time of each transaction - such discretion will be limited to around £1.0 billion (cash) above or below the prevailing required average operation size.

The size of the syndication programme was reduced to £32.5 billion at the financing remit revision which coincided with the publication of the outturn of the Central Government Net Cash Requirement in 2011-12 on 24 April 2012. However, following the larger than anticipated syndicated offer of 0<sup>3</sup>/<sub>8</sub>% Index-linked Treasury Gilt 2062 on 29 May 2012, the size of the programme was increased by £0.5 billion to £33.0 billion (and the size of the mini-tender programme was reduced by the same amount to £6.5 billion).

The results of the four syndicated offerings held in the financial year to-date, which together have raised £17.6 billion, are summarised in the table below.

<b>Date</b>	<b>Gilt</b>	<b>Size (£mn)</b>	<b>Issue Price (£)</b>	<b>Issue Yield (%)</b>	<b>Proceeds (£mn cash)</b>

On 31 August 2012, the DMO announced that, subject to market conditions, it expected to hold the following syndicated offerings in the period September to December 2012:

- week commencing 24 September: an index-linked gilt maturing in the 35-50 year area;
- second half of October: a new conventional gilt maturing in the 30-year area; and
- second half of November: an index-linked gilt.
