### Gilt market flows (£bn)

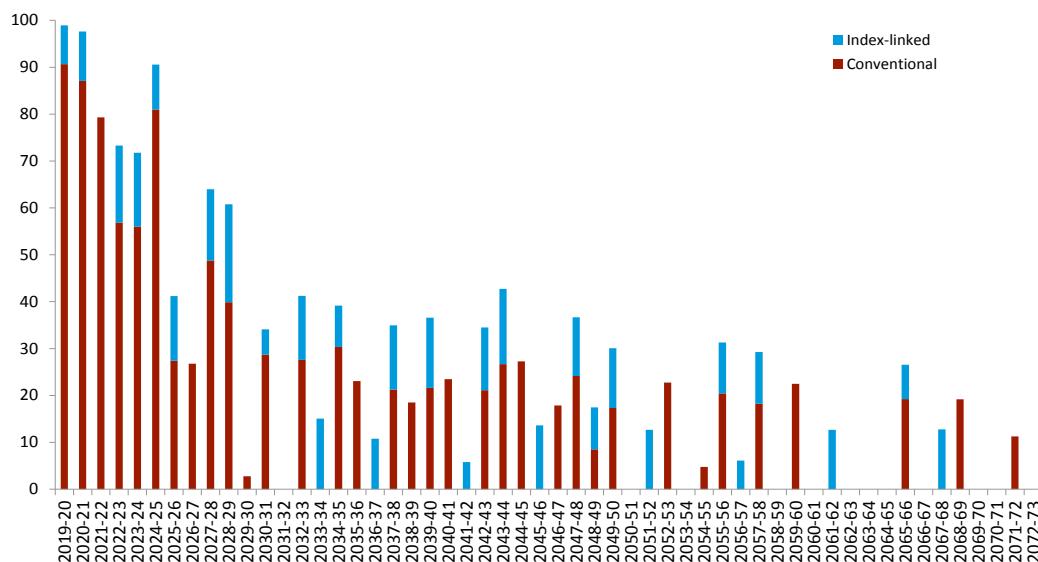

Redemption figures are net of official holdings.

### Annual financing requirements (£bn)

Values based on Spring Statement 2019 estimates and projections. Sources: DMO, ONS

### Future gilts redemptions (£bn)

The redemption totals for index-linked gilts in this chart do not reflect the full value of inflation uplift. They are calculated in a way consistent with the formulation of the Government's financing requirement; i.e. that part of the accrued inflation uplift on any redeeming gilts that represents the return to investors is included in the CGNCR in that redemption year, and the remainder is included in the redemption total for the year in which the relevant gilt redeems.
